

Counterfeit Avoidance Policy

As a specialist supplier in the medical industry, DanMedical Limited takes the issue of counterfeit materials very seriously.

This policy outlines the company's policy to minimise the risk of being supplied with counterfeit parts.

- We maintain an approved supplier list.
- We purchase wherever possible direct from the OEM or from an Authorised Distributor.
- In all cases our purchase order requires that a Certificate of Conformance be supplied with the material.
- We do not source material through brokers or use brokerage services to obtain material.
- Any customer specific requirements are passed along our supply chain.
- Scrap and unusable material is disposed of in a traceable manner in accordance with our sustainability and ethics policy (ref DI-PO-100)
- We keep primary records of incoming supplier paperwork.
- We instruct our staff to be vigilant and report any product which does not appear to be genuine or differs from the usual standard of supply or differences in packaging colours or fonts thereon.

DanMedical Limited aims at all times to meet the requirements set out by our customers. As such we have a program of management review and continuous improvement that applies to the entire business. This policy is reviewed annually.
